Lebanon Seaboard Corporation

SAFETY DATA SHEET

Revision Date: 01/11/2016

1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND COMPANY

Product Name: Lebanon Sevin 7G Granular Insect Control

EPA No: 264-429-961

Recommended use: This product is a granular insecticide for landscape use.

Supplier/Manufacturer
Lebanon Seaboard Corporation
1600 East Cumberland Street
Lebanon PA 17042
Tel: (800) 233-0628 (717-273-1685) Supplier Email: customerservice@lebsea.com

Emergency telephone number
800-233-0628 Chemtrec 1-800-424-9300 Prosar 888-208-1368

2. HAZARDS IDENTIFICATION

OSHA Signal Word: Danger; EPA Signal Word: Caution!

Hazard Statements and Hazard Categories:
H301: Toxic if swallowed. (Category 3)
H320: Causes eye irritation. (Category 2B)
H332: Harmful if inhaled. (Category 4)

Pictograms:

Precautionary Statements for handling: See Section 7.
P201: Obtain special instructions before use.
P202: Do not handle until all safety precautions have been read and understood.
P261: Avoid breathing dust or spray mist.
P264: Wash hands and exposed skin thoroughly after handling.
P270: Do not eat, drink or smoke when using this product.
P271: Use only outdoors or in a well-ventilated area.
P281: Use appropriate personal protective equipment as required to avoid breathing dust.
P301, P310, P330: IF SWALLOWED: Rinse mouth. Call a POISON CENTER or doctor/physician if you feel unwell.
P308: If exposed or concerned, seek medical advice.
P312: Call a poison center or doctor/physician if you feel unwell.
P305, P337, P351: If in eyes, rinse cautiously with water for several minutes. If eye irritation persists: Seek medical advice.
P340, 341: If inhaled and breathing difficulty occurs, remove victim to fresh air and keep at rest in a position comfortable for breathing.
P405: Store locked up.

Precautionary Statements for disposal - Dispose in accordance with all federal, state and local regulations.

Hazards not otherwise classified (HNOC): None

Unknown acute toxicity <1% of the mixture consists of ingredients of unknown toxicity

### 4. FIRST AID MEASURES

**General advice** When possible, have the product container or label with you when calling a poison control center or doctor or going for treatment.

- **Inhalation:** Move to fresh air and keep person at rest in a position comfortable for breathing. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a physician or poison control center immediately.

- **Skin contact:** Take off contaminated clothing and shoes immediately. Wash off immediately with plenty of water for at least 15 minutes. Call a physician or poison control center immediately.

- **Eye contact:** Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a physician or poison control center immediately.

- **Ingestion:** Call a physician or poison control center immediately. Rinse out mouth and give water in small sips to drink. DO NOT induce vomiting unless directed to do so by a physician or poison control center. Never give anything by mouth to an unconscious person. Do not leave victim unattended.

**Self-protection of the first aider:** Use any appropriate personal protective equipment as required to avoid breathing dust, and to avoid eye and skin contact.

**Most important symptoms and effects, both acute and delayed:**

**Symptoms:** Headache, temporary blurred vision due to contraction of the pupils (miosis) following contact with the eyes, abnormally slow heart action, Low blood pressure, Salivation, Bronchial hypersecretion, Vomiting, Diarrhea, Sweating, Muscular fasciculation (mild twitching), Spasm, Breathing difficulties, Respiratory paralysis, Sleepiness, Coma, Respiratory failure, Hypothermia, Convulsions, Nausea

**Indication of any immediate medical attention and special treatment needed**

**Risks:** This product is a cholinesterase inhibitor carbamate.

**Treatment:** The product inhibits cholinesterase resulting in stimulation of the central nervous system, the parasympathetic nervous system, and the somatic motor nerves. Watch for pulmonary edema, which may develop in serious cases of poisoning even after 24-48 hours. At first sign of pulmonary edema, the patient should be placed in an oxygen tent and treated symptomatically.

**Antidote:** The following antidote is generally accepted: **atropine**.

**Contraindications:** Avoid any derivatives of morphine. (Also, do not use oximes such as 2-PAM unless organophosphate intoxication is suspected.)
5. FIRE FIGHTING MEASURES

Suitable extinguishing media
Use extinguishing media suitable to local circumstances and the surrounding environment. Options in this case include water, CO₂, ABC Dry Chemical extinguisher, or foam. Avoid stirring up dust with water stream.

Specific hazards arising from the chemical
Thermal decomposition can lead to release of irritating and toxic gases and vapors. In the event of fire, do not breathe fumes.

Explosion data
Sensitivity to mechanical impact: None
Sensitivity to static discharge: None
Note: Excessive amounts of any burnable dusts can produce explosive mixtures if allowed to disperse in the air in confined areas where ignition sources occur. Prevent excessive dust dispersal in areas of use, storage, or production.

Protective equipment and precautions for firefighters
As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and standard protective gear.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment, and emergency procedures

Personal Precautions
Keep unauthorized people away. Isolate hazard area. Avoid contact with spilled product or contaminated surfaces. Use reasonable personal protective equipment as required to prevent contact with eyes or skin and to avoid breathing dust. Remove ignition sources prior to clean-up.

Environmental precautions
Prevent entry into waterways, sewers, basements or confined areas. Do not flush into surface water or sanitary sewer system. Do not allow to enter soil, waterways or waste water canal. See Section 12 for additional ecological information.

Methods for containment
Prevent further leakage or spillage, if safe to do so.

Methods for clean-up
Avoid dust formation. Sweep up or vacuum up spillage and collect in suitable container for disposal. Clean contaminated floors and objects thoroughly, observing environmental regulations. Use reasonable personal protective equipment as required. Cover powder spill with plastic sheet or tarp to minimize spreading and keep powder dry. Take up mechanically, placing in appropriate containers for disposal. Avoid creating dust. Clean contaminated surface thoroughly. Soak up excess with inert absorbent material.

7. HANDLING AND STORAGE

Safe Handling
Obtain special instructions before use. Ready and understand all safety instructions before use. Ensure adequate ventilation, especially in confined areas. Use personal protective equipment as required to maintain safe exposure levels. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, using the toilet or applying cosmetics. Remove Personal Protective Equipment (PPE) immediately after handling this product. Before removing gloves clean them with soap and water. Remove soiled clothing immediately and clean thoroughly before using again. Wash thoroughly and put on clean clothing.

Storage Conditions
Store in a cool, dry place and in such a manner as to prevent cross contamination with other crop protection products, and away from fertilizers, food, and feed. Store in original container and out of the reach of children, preferably in a locked storage area. Keep containers tightly closed in a cool, well-ventilated place. Keep out of the reach of children.

Incompatible materials
Avoid strong acids or alkali, or other reactive substances.
8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Engineering controls: Use with adequate ventilation to prevent dust buildup in air.

**Individual protection measures:** Use appropriate personal protective equipment as required to avoid breathing dust.

- **Eye protection:** Safety glasses with side shields, or goggles if eye contact is likely.
- **Skin and Body Protection:** Chemical resistant gloves (e.g., nitrile rubber), long sleeve coveralls and socks.
- **Respiratory Protection:** Dust mask recommended for dusty or misty conditions. If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approved respiratory protection should be worn. Respiratory protection must be provided in accordance with current local regulations.
- **General Hygiene:** When using product, do not eat, drink or smoke. Wash hands thoroughly after handling. Wash contaminated clothing before reuse.

9. PHYSICAL AND CHEMICAL PROPERTIES

- **Physical state:** Solid
- **Appearance:** Granules
- **Color:** Mixed, various
- **Odor:** Slight
- **Odor Threshold:** No information available
- **pH:** Not applicable
- **Melting point/freezing point:** Not applicable
- **Boiling point / boiling range:** Not applicable
- **Flash point:** No information available
- **Evaporation rate:** Not applicable
- **Flammability (solid, gas):** No information available
- **Flammability Limits in Air:**
  - Upper flammability limit: No information available
  - Lower flammability limit: No information available
- **Vapor pressure:** Not applicable
- **Vapor density:** Not applicable
- **Specific Gravity:** Not applicable
- **Water solubility:** Mostly Insoluble in water, although some ingredients may dissolve.
- **Solubility in other solvents:** No information available
- **Partition coefficient:** No information available
- **Autoignition temperature:** No information available
- **Decomposition temperature:** No information available
- **Oxidizing properties:** Not an oxidizer
10. STABILITY AND REACTIVITY

**Reactivity**: Not particularly reactive.

**Chemical stability**: Stable.

**Possibility of Hazardous Reactions**: May release heat and fumes when mixed in solution with incompatible reactive materials.

**Hazardous polymerization**: Will not occur.

**Conditions to avoid**: High heat, sparks and open flames, as some ingredients may be burnable.

**Incompatible materials**: Strong acids or alkali, or other reactive substances.

**Hazardous Decomposition Products**
May emit toxic fumes under fire conditions, such as Nitrogen oxides (NOx), Ammonia, Oxides of sulfur, Hydrogen chloride and Carbon monoxide, and traces of Methyl isocyanate. If burned, stay out of smoke.

11. TOXICOLOGICAL INFORMATION

**Routes of exposure**: Ingestion, eyes (contact), skin (contact), dust inhalation

**Symptoms**

**Ingestion**: Harmful if swallowed. This product causes reversible cholinesterase inhibition without long term effects. Repeated overexposure may cause more severe cholinesterase inhibition with more pronounced symptoms. May lead to rapid onset of nausea, vomiting, diarrhea, abdominal pain, involuntary shaking, excess salivation, pinpoint pupils, blurred vision, profuse sweating, temporary paralysis, respiratory depression, and convulsions.

**Inhalation**: Harmful if inhaled. May produce symptoms similar to those from ingestion.

**Skin**: Harmful if absorbed through skin. May produce symptoms similar to those from ingestion.

**Eye**: Causes redness, irritation, tearing on contact.

**Acute oral toxicity (Carbaryl)**
- $LD_{50}$ (male rat) 283 mg/kg
- $LD_{50}$ (female rat) 246 mg/kg

**Acute inhalation toxicity (Carbaryl)**
- $LC_{50}$ (male/female combined rat) 2.5 mg/l; (4 hr) as Dust.
- $LC_{50}$ (male/female combined rat) 10.0 mg/l; (1 hr) as Dust. (Extrapolated from the 4 hr $LC_{50}$.)

**Acute dermal toxicity (Carbaryl)**
- $LD_{50}$ (rabbit) > 2,000 mg/kg

**Skin irritation**
Carbaryl produced no skin irritation (rabbit)

**Eye irritation**
Carbaryl produced minimal eye irritation (rabbit)

**Sensitization**
Carbaryl was Non-sensitizing. (guinea pig)

**Germ cell mutagenicity**
Carbaryl was not mutagenic or genotoxic based on the overall weight of evidence in a battery of in vitro and in vivo tests.

**Carcinogenicity**
Carbaryl caused at high dose levels an increased incidence of tumors in the following organ(s): liver, thyroid, Kidney, cardio-vascular system. The mechanism that triggers tumors in rodents is not relevant for the low exposures encountered under normal use conditions. Carbaryl is classified as a carcinogen by the following agencies:
Amorphous silica is classified by IARC as a Class 3 carcinogen.

Reproductive toxicity: Carbaryl did not cause reproductive toxicity in a two-generation study in rats.

<table>

<tbody>
<tr>
<td>STOT - repeated exposure</td>
<td>No information available</td>
</tr>
</tbody>
</table>

Chronic toxicity: No information available

Target Organs: Liver, thyroid, Kidney, cardio-vascular system.

Aspiration hazard: No information available

12. ECOLOGICAL INFORMATION

Fertilizers may be harmful to aquatic life with short term effects, causing algal bloom and increased BOD, depending on the amount released.

The herbicide ingredients are toxic to aquatic invertebrates. Use with care when applying to turf areas adjacent to any bodies of water. Do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Drift and runoff from treated turf may adversely affect aquatic organisms in adjacent bodies of water. Do not apply when weather conditions favor drift from treated areas. Do not contaminate water when disposing of equipment washwater.

Application around a cistern or well may result in contamination of groundwater or drinking water, particularly where soils are permeable and water table is shallow.

13. DISPOSAL CONSIDERATIONS

This material, as supplied is not a hazardous waste according to federal regulations (40 CFR 261).

**Disposal of wastes:** (Example)

- This product is a hazardous waste material.
- EPA Waste Numbers are applicable for this product’s components.
- Dispose of in accordance with Local, State, and Federal regulations.

**Contaminated packaging**

US Federal: special packaging considerations for pesticide containers. If the container is empty, do not reuse it. Place it in the trash, unless the label specifies a different procedure. Follow local regulations.

14. TRANSPORT INFORMATION

Freight Classification: INSECTICIDES OR FUNGICIDES, N.O.I., POISON, OTHER THAN GASES

**DOT/IMDG/IATA**

- UN number: 2757
- Class: 6.1
- Packaging group: III
- Marine pollutant: No
- Proper shipping name: CARBAMATE PESTICIDES, SOLID, TOXIC (CARBARYL)
- RQ: 100 Lb (Reportable Quantity of carbaryl is reached with 1428 lb of this product.)
15. REGULATORY INFORMATION

US Federal Regulations

TSCA list: Carbaryl 63-25-2

US. Toxic Substances Control Act (TSCA) Section 12(b) Export Notification (40 CFR 707,Subpt D): None.

SARA Title III - Section 302 - Notification and Information: None.

SARA Title III - Section 313 - Toxic Chemical Release Reporting: Carbaryl 63-25-2 1.0%

US States Regulatory Reporting

CA Prop65
This product contains a chemical known to the State of California to cause cancer. (Carbaryl 63-25-2)
This product contains a chemical known to the State of California to cause birth defects or other reproductive harm.
- Carbaryl 63-25-2 Developmental toxin.
- Carbaryl 63-25-2 Male reproductive toxin.

US State Right-To-Know Ingredients
- Carbaryl 63-25-2 CA, CT, MN, NJ
- Synthetic amorphous silica 112926-00-8 MN

Canadian Regulations

Canadian Domestic Substance List: Synthetic amorphous silica (112926-00-8)

Environmental

CERCLA: Carbaryl 63-25-2 100 lbs  (Reportable Quantity of carbaryl is reached with 1428 lb of this product.)

Clean Water Section 307 Priority Pollutants: None.

Safe Drinking Water Act Maximum Contaminant Levels: None.

International Regulations

European Inventory of Existing Commercial Substances (EINECS): Carbaryl

EPA/FIFRA Information:
This product is a pesticide product registered by the Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets, and for workplace labels of non-pesticide chemicals. Following is the hazard information required on the pesticide label:

Hazard statements:
- Harmful if swallowed.
- Do not take internally.
- Avoid breathing dust.
- Avoid contact with skin, eyes and clothing.
- Wash thoroughly with soap and water after handling.

16. OTHER INFORMATION

HMIS: Health - 2  Flammability - 1  Physical Hazard - 0

0 = minimal hazard,  1 = slight hazard,  2 = moderate hazard,  3 = severe hazard,  4 = extreme hazard

Disclaimer: The information provided in this material safety data sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as guidance for safe handling, use, processing, storage, transportation, disposal, and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.
