# Pro-Tack

20,000 sq ft

## Premium Tackifier

25,000 sq ft

**Recommended Uses:**

Wood and Paper Mulch Tackifier  
Straw/and Hay Tackifier  
Slurry Thickener & Lubricant  
Dust Abatement  
Soil Stabilization Agent  
Water retaining agent

**Application Rate:**

One 3 lb bottle treats one acre.  
When tacking straw or hay, we  
recommend adding 200 lb of  
fiber mulch per acre.

30,000 sq ft

**Recommended Mixing Procedure:**

Fill tank with water and all other slurry ingredients. Set agitation to  
1/2 speed and slowly sift tackifier into the slurry. Once added, begin  
full speed agitation for 3-5 minutes.

35,000 sq ft

*Caution: Very slippery when wet.  
Clean wet spill with absorbant material.  
Clean dry spill with vacuum.*

**Net Wt 3 lbs**
