## Enviro-Green \*L

### 50% SRN with Micros

Enviro-Green\*L 18-3-6 is a multiuse, value packed, high quality, source of nitrogen, phosphorus, potassium, and micro nutrients designed to green, grow and promote healthy turf grasses. Enviro-Green\*L 18-3-6 is a 50-50 balanced blend of quickly available and slow release nitrogen providing fast green up in conjunction with slow release nitrogen designed to provide nitrogen nutrition over an extended time period. Phosphorus is required for early season growth and root formation. Potassium is a critical nutrient for root growth, hardiness and disease resistance. Key micronutrients included are: iron, manganese, copper, zinc, and boron. Micronutrients are required for metabolic functions of the plant. Enviro-Green\*L 18-3-6 is formulated to be used on both warm and cool season grasses at rates designed to provide value for the turf professional. The high quality ingredients and the balanced nutrition provide the flexibility to be used not only on turf both also for tree root feeding.
