

Ideal for reducing residue buildup in spray tanks

ONSIDE KICK™

TANK CLEANER

PRINCIPAL FUNCTIONING AGENTS

Anionic surfactants, chelating agents and ammonia 100%

KEEP OUT OF REACH OF CHILDREN DANGER

Causes severe skin burns and eye damage. Causes serious eye damage. Keep out of reach of children. Read label before use. Keep container tightly closed. Keep only in original container. Do not breathe dust, fume, gas, mist, vapors, or spray. Wash contaminated areas thoroughly after handling. Do not eat, drink or smoke when using this product. Wash contaminated clothing before reuse. Store locked up. Dispose of contents in container to an approved waste disposal facility in accordance with all local /regional/national/international regulations.

Personal Protective Equipment: Wear protective gloves, protective clothing, eye protection, and face protection.

FIRST AID

Call a poison control center or doctor immediately for treatment advice.

Have the product container with you when calling a poison control center or doctor, or going for treatment.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do then continue rinsing. Have the product container with you when calling a poison control center or doctor, or going for treatment. If eye irritation persists: Get medical advice or attention.

IF ON SKIN OR CLOTHING (or hair): Take off immediately all contaminated clothing. Rinse with water or shower. Wash with plenty of soap and water for several minutes. Call a poison center, doctor, chemical manufacturer, importer, or distributor to specify the appropriate source of emergency medical advice. If skin irritation occurs: Get medical advice or attention.

IF SWALLOWED: Rinse mouth, Do not induce vomiting. Unless advised otherwise by a poison control center or doctor, if able. Do not give anything by mouth to an unconscious person. Call a poison center, doctor, chemical manufacturer, importer, or distributor to specify the appropriate source of emergency medical advice if you feel unwell.

IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth to mouth if possible.

GENERAL INFORMATION

ONSIDE KICK™ tank cleaner is formulated to eliminate residues from mix tanks. Thorough cleaning of spray equipment with **ONSIDE KICK™** before changing to the next pesticide prevents previous tank mix solutions from affecting future spraying. **ONSIDE KICK™** has an extremely alkaline pH and helps solubilize acid active ingredients more efficiently.

- Reduces carryover of actives that can injure sensitive turf and ornamentals
- Extends life of seals and other soft parts by removing actives and residues and other corrosive materials

Ideal For:

- Cleaning pesticide actives and other residues out of mix tanks and spray equipment
- Protecting spraying systems from corrosive residues

DIRECTIONS FOR USE

For small tanks such as backpack sprayers: Fill the sprayer with a small amount of water. Add about 1 ounce of **ONSIDE KICK™** for each gallon of water. Shake sprayer to cover all surfaces several times. Pour out water. Repeat, if needed. Rinse several times with clean fresh water until all signs of cleaning agent are gone.

For large tanks: Use about 1 quart of **ONSIDE KICK™** per 100 gallons of water. Hard-to-eliminate residues, such as 2,4-D or dicamba may require increased amounts of **ONSIDE KICK™** or repeated rinses or both in order to completely eliminate these tricky residues.

Add rinse water then tank cleaner at an amount adequate for cleaning. Turn on circulation. Continue circulation for 10 to 15 minutes. As prescribed by the equipment manufacturer, clean the booms, hoses and other outer areas for several minutes. Drain the system. Follow with several thorough rinses. Complete rinsing is essential before starting the next tank mix.

HARD TO CLEAN RESIDUES AND RINSATE TESTING: Some pesticides are difficult to clean even with thorough procedures. Some residues, such as those from 2,4-D and dicamba, may be extremely hard to remove. Carryover of these actives could injure certain plants and sensitive ornamentals, if not thoroughly removed.

STORAGE AND DISPOSAL

STORAGE: Store locked up. Store in a cool well-ventilated place. Keep in original container tightly closed. Do not reuse empty container. Do not store with food, feed, or other material to be used or consumed by humans or animals. Do not contaminate water supplies. For optimal storage, store between 40° and 90° F.

DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Dispose of contents in container to an approved waste disposal facility in accordance with all federal, state and local regulations. Triple rinse (or equivalent) adding rinse water to application tank. Offer container for recycling or dispose of in a sanitary landfill or by other procedures approved by local regulations. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrcycle.org.

WARRANTY STATEMENT: EXACTO, INC. (Exacto) represents and warrants that its products are manufactured in accordance with the product's specifications and that its products, at the time of delivery to the purchaser, shall be free from all material defects. EXACTO MAKES NO WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, CONCERNING THE PRODUCT, INCLUDING BUT NOT LIMITED TO THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE DISCLAIMED. FURTHER, IT IS UNDERSTOOD AND AGREED THAT EXACTO'S LIABILITY SHALL NOT EXCEED THE RETURN OF THE AMOUNT OF THE PURCHASE PRICE PAID BY PURCHASER AND UNDER NO CIRCUMSTANCES SHALL EXACTO BE LIABLE FOR SPECIAL, INDIRECT, INCIDENTAL, CONSEQUENTIAL OR PUNITIVE DAMAGES.
