GENERAL INFORMATION

AUDIBLE™ 90 surfactants are high quality, general purpose nonionic surfactants that can be used with most insecticides, fungicides, herbicides and wettable powders. **AUDIBLE™ 90** improves performance of active spray ingredients by giving them more uniform distribution and better wetting of the plant surface.

- Lower surface tension of the tank mix allows spray droplets to spread upon contact
 - Increased contact area drives pesticide actives into the plant faster
 - Allows water to penetrate hydrophobic surfaces, ensuring delivery of actives
- **AUDIBLE™ 90** meets pesticide label requirements for a 90/10 surfactant

Ideal For:

- Use with pesticides in horticulture, nursery, turf and pest control applications
- Creating a uniform distribution of spray mix
- Increasing pesticide coverage and penetration of target plants

DIRECTIONS FOR USE

NOT FOR AQUATIC USE

Follow the instructions on all pesticide labels. The user must either have previous experience with the specific tank being used or must conduct phytotoxicity tests and a jar test with the specific tank mix in order to determine product compatibility.

Although **AUDIBLE™ 90** may usually be added almost anytime during the mixing process, it is strongly recommended that it be added after all other tank mix additives and actives. Certainly, any solid formulations must be added and thoroughly mixed into the tank water before adding this or any other liquid products to the tank.

Add **AUDIBLE™ 90** as a surfactant last before the final addition of water in the recommended lever in the chart below.

USE RATES

Applications	AUDIBLE™ 90 per 100 Gallons
Insecticides	3 to 8 fluid ounces
Fungicides	3 to 8 fluid ounces
Herbicides	1 to 4 pints
Acaricides	3 to 8 fluid ounces
Defoliants	1 to 2 pints
Desiccants	1 to 2 pints
Wettable powders	1 to 2 pints

Different conditions may cause some variation in the amount of this product required. Use the least amount of **AUDIBLE™ 90** needed to perform effectively.

STORAGE AND DISPOSAL

STORAGE: Store in a cool, dry place. Store in original container only. Do not add anything to the container. Keep container tightly sealed when not in contact with water, food or feed by storage or disposal of this product.

DISPOSAL: Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal if allowed by law. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrcycle.org. Decontaminated containers and materials must be disposed of in a manner allowed by local, state and federal laws and regulations.
